[Agenda-08-29 & 30 071017.pdf](#)

Good to know.

See attached SAB agenda for the 29th (and 30th). It looks like you're available after 11 and before 5.

Do you want to give remarks or observe the SAB meeting? Tom confirmed that Inside EPA, BNA, and E&E news has registered so media will be writing about the meeting

The session that is specifically relevant to ORD is the review of the draft IRIS assessment for RDX from 3 - 5. Would you want Nathan to block your schedule for that or more than that?

Let us know.

Thanks.

Liz
